

Museum of Australian Commercial Aviation

Preserving Australia's Airline History

Mission Statement 2017

The Museum of Australian Commercial Aviation is a private collection operating in Western Australia.

The Museums aim is to preserve a representative sample of memorabilia and collectible objects including day to day operational objects from Australia's past and present commercial airlines.

This includes a brief history of each airlines operations, fleet, key people and key dates within the operations history.

The Museums aims are achieved by the preservation and show casing of the collection online as part of Australia's cultural heritage.
